

The Power Carver System

10112 \$299.00

Power Carver Handpiece Only

We are proud to feature this new air tool. We feel it is the most reliable egg carving tool in the industry. Some of the advantages are: No vibration, Never heats up, Light weight. Comes with a 1 year warranty. Handpiece comes with an instructional DVD for assembly and cutting.

10114 \$95.00 Regulator

This Control Pack delivers clean air under constant pressure.

10113 \$399.00

Compressor with Hose

This mini compressor is the result of the design efforts of the Golden Egg of Idaho and the manufacturer.

Compressor runs quiet enough for using in apartments.
Approximately 18 pounds

10115 \$35.00 Foot Control

This electric foot control turns the air compressor on and off with ease.

Complete Unit Item # 10116 \$799.00

The Complete Unit includes the Power Carver, Compressor, Foot Control and Regulator.

Cutting eggs does not have to be hazardous to your health. You can now cut eggs in the comfort of your home. This powerful, yet compact size unit comes with a built in 110 volt electrical outlet and a fully lit and cushioned work area. This unit is easy to maintain. Filters are available at most hardware stores.

Dimensions: 12" High, 15" Wide, 15" Deep.

Burs, Drills, and Blades for the Air Tool

All items on this page are designed for the air tool. Burs and drills may be used in the Dremel by using a 482-D (1/16") collet.

199 (699L) Carbide Bur \$2.90

- Use for fine filigree cutting.
- Has longer cutting edge than 201.
- Use on most eggshells.

197 Cutting Bur \$4.95

- Great for cutting Emu, Rhea & Ostrich eggs.
- Cuts wider lines than 199 but much faster.

198 Carbide Shaver \$3.20

- Used for filigree cutting on larger eggshells.
- Great for cutting around lace.
- Cuts wider lines and much faster than 199 and 201.

201 (699) Carbide Bur \$3.20

- Also used for filigree cutting.
- Used on most eggshells.

203 Carbide Bur \$3.05

- Used for very fine cutting.
- Best used on small eggshells.

204 Diamond Flame Drill \$9.10

- Can be used to cut most eggshells, lasts longer than carbides.
- Use for fine work.

205 Diamond Flame Drill \$9.10

- Can be used on most eggshells.
- Larger circumference than 204.

212 Diamond Flame Drill \$19.25

- Best used on larger eggshells (Rhea and Ostrich).
- Cuts widest line of all burs and drills.

207 Diamond Wheel 3/16" \$19.60

- Use to cut eggs in half or cut ovals, thin blade (.5 mm thick).
- Solid surface.

213 Diamond Wheel 3/16" \$20.65

- Same size and uses as 207.
- Makes tighter curves than larger wheels.

214 Diamond Wheel 1/4" \$12.75

- Largest wheel for air tool.

215D Flying Saucer Wheel \$8.25

- Makes a tiny petal shape.
- Approximately 2 1/2 mm.

216 Flying Saucer Wheel \$9.35

- Makes a small petal shape.
- Good for quick lattice design.

The following burs and drills can be used for etching, scratch carving, and more. These burs are designed for the air tool but can be used in the Dremel using a 482 (1/16") collet.

SC217 Diamond Football \$9.30

- Finer texture for finer smoothing work.
- Good for removing Emu shell layer to white area.

SC218 Diamond Football \$9.30

- Finer texture for finer smoothing work.

SC219 Diamond Football \$9.30

- Regular texture for rough shaping.
- Develops depth for petals and creating veins.

SC220 Diamond Football \$9.30

- Larger version of SC219.
- Covers larger areas.

More burs and drills to be used for etching and Scratch carving. Items designed for the air tool, but can be used in the Dremel with a 482 collet.

SC222 Round Carbide \$3.55

- Use for outlining patterns.
- Creates fine rounded line - good for hair, etc.

SC223 Round Carbide \$3.55

- Use for outlining.
- Makes a larger line than SC222.

SC224 Round Carbide \$3.55

- Heavy removal of top layer of Emu shell.
- For removing large areas of Ostrich shell.

SC225 Inverted Cone Carbide \$3.55

- Very fine, excellent for outlining for a sharp straight edge.
- Most popular for outlining.

SC226 Inverted Cone Carbide \$3.55

- Makes more pronounced lines.
- Use on outer edges of patterns.

SC227 Cylinder Carbide \$3.55

- Side cutting burr.
- For removing, finishing and getting into small corners.

SC228 Plain Fissure Carbide \$3.55

- Use for removing shell.
- For corners and tight places.
- Makes nice clean edges.

SC229 Cone End Diamond \$9.30

- Smoothing, removing shell.
- Makes concave lines.

SC230 Round End Taper Diamond \$9.30

- Good for sculpting.
- Use on goose eggs and up.
- Removes shell faster than 199 or 699.

Experiment with these burs to find which works best for your purpose. These have a variety of uses and we have listed just a few. Many thanks to Bob Ihrig for his help in describing the uses for these burs.

275 Single Speed – Dremel Tool \$68.70

This high speed 35,000 RPM tool is double insulated and has a permanently lubricated bronze sleeve bearing motor for smooth dependable power. 6 ft. two-wire power cord does not require adapter plug.

Motor Specifications:

- 120V, 50-60 Hz, AC, 1.15 Amps.
- 1/8" collet included.
- All other features and benefits are the same as Model 395.

395 Variable Speed – Dremel Tool \$94.10

The model 395 is our top of the line tool. It has an adjustable high speed ball bearing motor 5,000-35,000 RPM. Speed can be adjusted for any application, any material. It is double insulated, eliminating the need for grounding. The custom designed shatter resistant housing fits comfortably in your hand to provide precise finger-tip control. A thrust bearing provides greater drilling capability. Other features include easy replacement of motor brushes, conveniently positioned shaft lock switch prevents shaft rotation when changing bits and 6 ft. two-wire cord. 1/8" collet included.

Motor Specification: 120V, 50-60 Hz, AC, 1.15 Amps.

225-D Flex-Shaft Attachment \$43.00

Attaches to Dremel tools #'s 275 & 395. Versatile 36" long cable with comfortable 1/2" diameter slim-grip handpiece allows finger-tip control to carve, sand, polish, clean, engrave, cut and more.

90952 DISCONTINUED

Moto-Flex Shaft Lubricant
Use with 225-D Flex Shaft.

60 Twist Drill \$1.00

- Use for filigree cutting and drilling small holes.
- Requires 483 collet.

301 Carbide Bur \$2.55

- Good to drill holes for hinges.
- Requires 481 collet.

307 Diamond Wheel 3/16" \$19.60

- Smallest wheel available for Dremel.
- Require 481 collet.

308 Diamond Wheel 1/4" \$19.60

- Medium Size wheel for Dremel.
- Requires 481 collet.

945 Sanding Point \$3.60

- *Aluminum Oxide.
- *Great for drilling holes to empty eggshells.
- *Requires 480 collet.

952 Sanding Point \$3.60

- *Aluminum Oxide.
- *Good for smoothing.
- *Requires 480 collet.

480-D Dremel Collet 1/8" \$3.60

481-D Dremel Collet 3/32" \$3.60

482-D Dremel Collet 1/16" \$3.60

483-D Dremel Collet 1/32" \$3.60

Use the correct size collet for each Dremel accessory.

309 Diamond Wheel 5/16" \$22.80

- Largest Diamond wheel for Dremel.
- Requires 481 collet.

311 Sm. Flying Saucer Wheel \$8.25

- Makes small petal shape, 4mm.
- Sink into shell and lift straight out.
- Requires 481 collet.

312 Med. Flying Saucer Wheel \$10.15

- Medium Petal Shape, 6mm.
- Requires 481 collet.

313 Large Flying Saucer Wheel \$13.45

- Largest Petal Shape, 10mm.
- Requires 481 collet.

402 Dremel Mandrel \$3.60

- Use to hold cutting discs #14-17.
- Requires 480 collet.

#14 (1/2") #15 (5/8") #16 (3/4") #17 (7/8")

Carborundum Cutting Discs \$.26 ea.

Box of 100 (per size) \$26.00

- Use with 402 mandrel to cut eggshells.
- 480 Collet needed.

4485 Quick Change Collet Nut \$3.15

- Allows quick replacement of collets.
- Fits 275 and 395 Dremels.

90962 Wrench \$1.55

- Use to change bits & collets in Dremel tool.

450 Frame and Scribe \$62.95

450-S Scribe only \$21.70

Features:

- 12 Sided - Allows you to divide eggs into 2 -12 equal parts.
- Scribe lets you adjust pencil up or down with ease.
- Double set of plastic holders on each post to hold egg firm in frame.
- Most markings can be made by moving the frame rather than moving the egg.
- Marks eggs from Quail to Ostrich.
- Adapter rings included for marking Quail eggs.
- Easy to use with step by step instructions.
- Extra plastic holders for posts available for \$.55 each.

457 \$77.50

Eggers Helper Egg Marker

This Egg Marker will enable you to divide shells into 2, 3, 4, 6, 8 and 12 equal parts. It may be used to mark perfect ovals for each egg shell as well as center top, center bottom and girth lines.

451 The Eggers Helper \$12.80

A precision snap in device for both egg markers shown on this page.(also fits some other models)

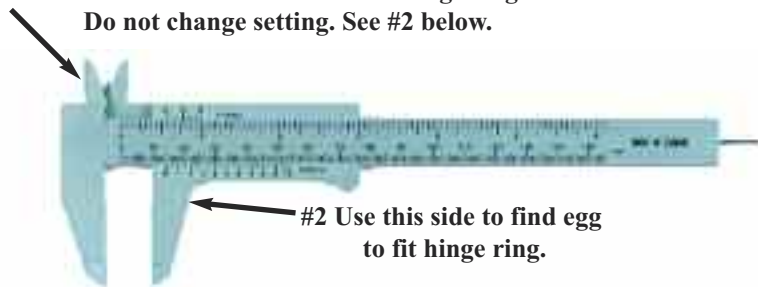

- Makes marking small eggs a snap.
- Designed to provide ample hand space for marking smaller eggs.

Tools

Use Spring Egg Holders for eggs with only 1 hole.

#1 Use this side to measure inside of hinge ring.
Do not change setting. See #2 below.

456 Caliper \$4.75
Great for measuring eggs for hinge rings.
Very easy to use!

Tweezers and Tools

H501 \$19.05
4 1/4" Fine Pointed Tweezers.
Hardened Points - Nickel Plated.

002 \$1.90
Black Pilot Pen - Ultra Fine Permanent Point.

H505 \$5.95
6" Curved Tweezers.
Hardened Points - Nickel Plated.

PK1 \$3.55
Stainless Steel Pick.

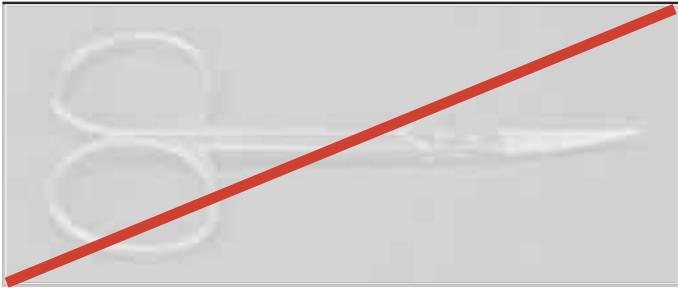

H508 \$7.25
4 1/2" Curved Tweezers.
Hardened Points - Nickel Plated.

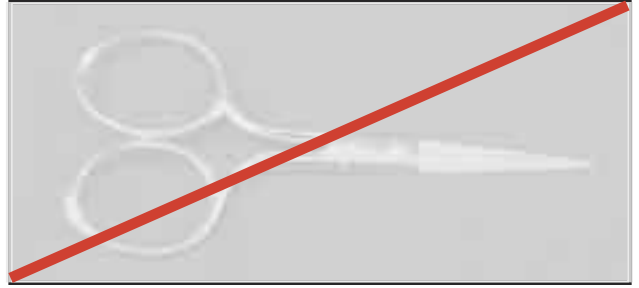

003 \$1.75
White China marker - Great for marking Emu eggs.

Tools

701-S DISCONTINUED
3 1/2" Curved Scissors

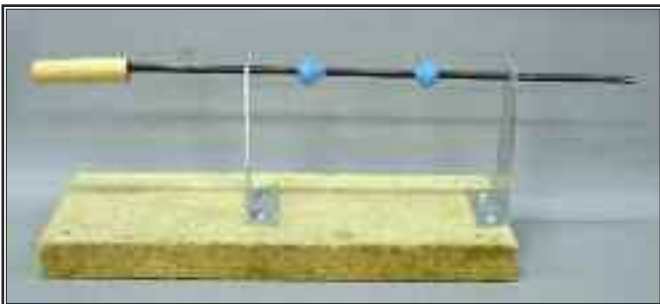

102-3 DISCONTINUED
3 1/2" Embroidery Scissors

H366 \$6.90
6 1/2" Long Needle Nose Pliers
Serrated jaws, Taper to 1/16"
Spring Action, Vinyl Handles

H414 \$7.20
5" Round Nose Pliers
Smooth Nose for making loops, bends, etc.

510 \$10.75 - Multi Purpose Board
Use to hold egg holders, to build filigree stands using brass rods and holding spring egg holder while jewelling, etc.

500A \$7.90 - Board & 2 #509 Rods
500B \$2.90 -Board Only
Drilled with two holes to accept paint rods and spring egg holders.

Brass Rods and Tubes

For making stands, finials, etc. 12" long.

160 \$.60 - 1/32" Brass Rod

161 \$.60 - 3/64" Brass Rod (accepts beads & pearls) Use to replace hinge pin to make butterfly wings.

162 \$.80 - 1/16" Brass Rod (accepts most findings)

163 \$1.33 - 3/32" Brass Rod

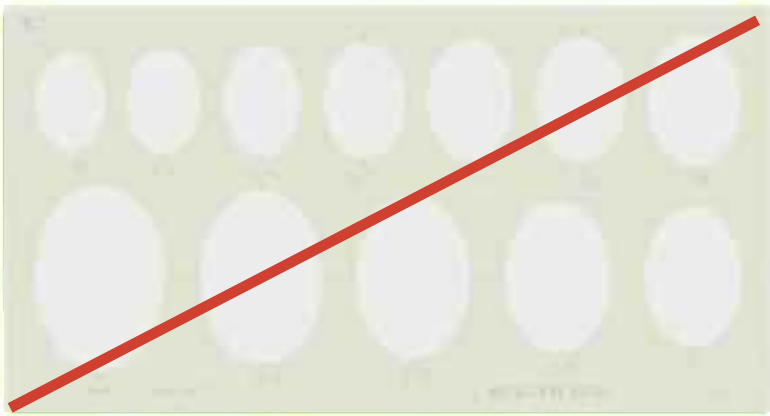

125 \$1.20 - 1/16" Brass Tube (accepts 160 rod)

126 \$1.27 - 3/32" Brass Tube (accepts 161 & 162 rod)

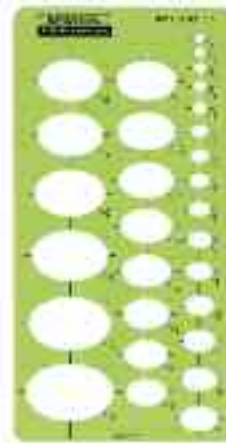

127 \$1.61 - 1/8" Brass Tube (accepts 162 & 163 rod)

128 \$1.89 - 5/32" Brass Tube (accepts 163 rod)

3903-45 DISCONTINUED

Large ellipses (45 Degrees) 12 Ellipses form 2 1/8" - 4".
Use for Goose, Rhea and Ostrich Eggs.

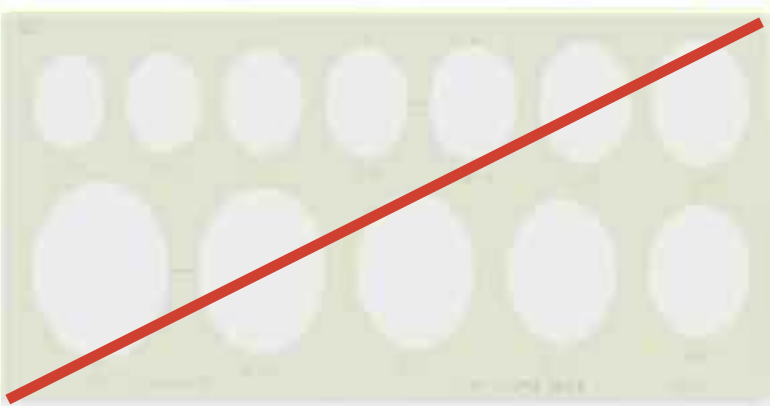

R70-40 \$9.25

Ellipses (40 Degrees).
29 Ellipses from 1/4" - 2".

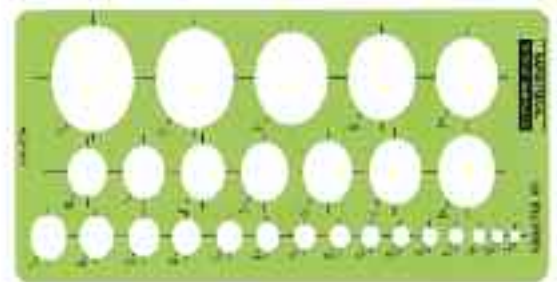

R70-45 \$9.25

Ellipses (45 Degrees).
16 Ellipses from 1/4" - 2".
